Carbon Fibers in aircraft

SAHM - the Winding Specialist | Our company

Georg Sahm GmbH & Co. KG is an international enterprise based in Eschwege, Germany.

We offer innovative solutions in winding and unwinding technology, and support for upstream and downstream processes. SAHM is a leader in automatic winding technology for technical yarns.

Founded in 1945 by engineer Georg Sahm, our reputation and our name have been synonymous with quality, expertise and reliability worldwide. From the beginning, entrepreneurial courage and vision have formed the basis for SAHM's steady growth.

Working together closely with our customers and partners enhances our position as an employer by fostering innovation in a friendly working environment.

The key to success | Our products

Long-lasting durable machines and efficient production lines:

In close collaboration with our customers and partners, we develop and implement intelligent solutions in winding technology, as well as custom designed handling and package transport systems.

Our product portfolio includes precision cross winders, parallel winders and rewinding equipment for various materials such as carbon fibers, industrial yarns, film tapes, adhesive tapes, security tapes for bank notes, monofilaments and multifilaments.

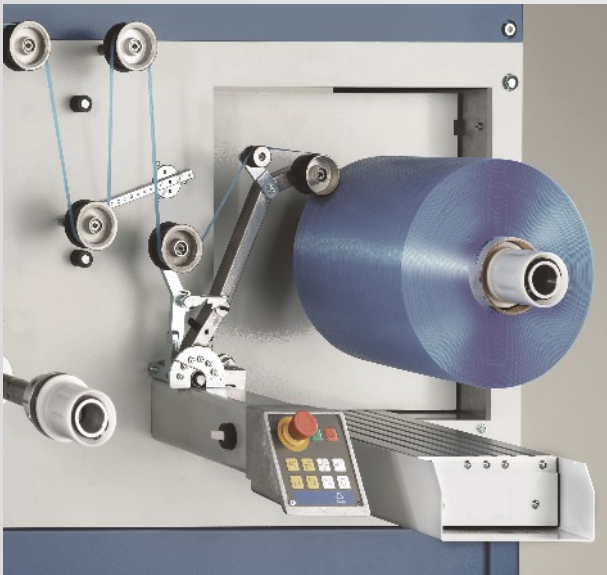

Sophisticated and reliable products by SAHM offer you a competitive advantage in the global market.

SAHM - the Winding Specialist

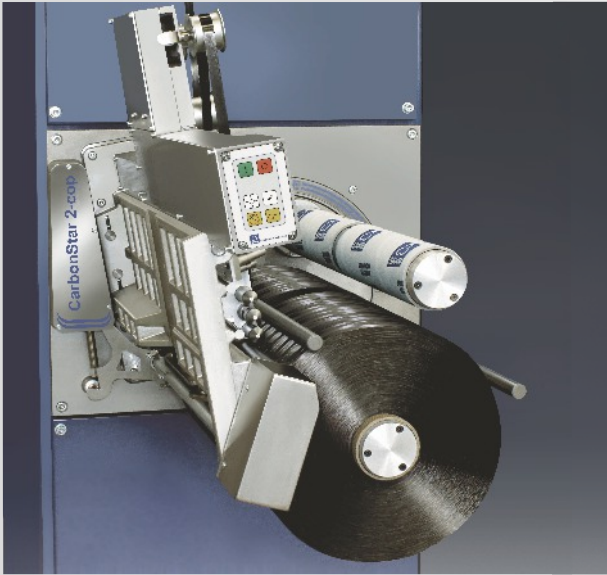

GERMAN  Technology

500 kg Jumbo winder for PAN Precursor yarns

Spindle traversing winder for adhesive tapes and prepreg tapes

Automatic take-up 2-cop winder for carbon fibers and towpreg

Automatic take-up winder for tapes with variable traverse lengths

Automatic take-up winder for technical yarns up to 2500 m/min winding speed

The people factor | Our team

Top performance is a group effort. Our staff is vital to our company's success and the quality of our products and services.

The SAHM team makes use of our experience, expertise and commitment to perfection in winding. Together with our customers and partners we develop fresh new ideas and shape technical progress.

This innovative drive is a fundamental element of our corporate philosophy as practiced day-to-day by our people individually and as a team.

Always looking for perfection | Our technology

Our customers are front and center in our considerations and in what we do.

With future-oriented machine concepts, state-of-the-art electronics and careful selection of materials used, we stay abreast of their high demand for quality and our own stringent standards.

To achieve the perfect winding package, we continually employ the latest technological developments to meet the quality requirements of all the downstream processes.

Security tapes in banknotes

At home the world over | Our service

Together with our branches in the United States and China and with our worldwide network of expert agencies, we ensure rapid availability. Our international customers can be assured they get timely and competent support whenever needed.

Since 2002 we have been affiliated with the STARLINGER GROUP based in Vienna, Austria.

The STARLINGER GROUP is a family-owned global machinery corporation.
